CREATOR & PIONEER

Founded in 1996 by two friends: Robert Cirjak and Roman Rademacher, Wibit is the creator of the inflatable water park industry. The German company has revolutionized play on the water over the years with its team constantly working on new creations. Inspired by a passion for sports, the portfolio has transformed over the years from single trampolines to entire Sports Parks!

LEGEND

water depth dimensions capacity infinity modular
Proven winner
In our standard combinations we combine our most popular modules to make your Sports Park diversified and successful. With a deep passion for sports, we constantly look for new fun products to challenge your guests.

Most stable structure
A closed system with infinity loops is the key to stable anchoring which keeps your Sports Park in position even when used under full capacity and during wind or waves.

Infinity Loops
The infinite loop configuration of Wibit’s open water combinations allows endless routes of fun. This unique shape makes our Sports Parks so popular, as never ending paths prevent bottlenecks and always offer a direction to take.

Entries everywhere
With our new Step, getting back onto the Sports Park is now easier than ever before.
SOMETHING FOR EVERYONE

The Roundabout marks the transition area between different levels.

1 Level
Easy products to simply run over or relax on make level 1 suitable for beginners.

2 Level
Some skills are needed for this level which offers great jumping modules.

3 Level
Experienced users know how to climb and run this obstacle route.

4 Level
Level 4 is a real challenge, containing the highest and most skill requiring products.

All Wibit standard combinations are designed to offer routes with different challenge levels. Every visitor, may it be a first timer or a constant user, can easily find and test his skill level.
Sports Park XL

Another Sports Park revolution generated this ultimate island of fun for everyone. Offering four different routes of diverse challenge levels, the Sports Park XL is the ultimate water park showpiece.

MAINTENANCE

*depending on your purchase value and combination, Wibit will include the most suitable EXTRAS for you!
INSTALLATION

With many important details to be considered, proper installation is vital to the sustained performance of your new Sports Park. With our installation service you will have peace of mind during the whole process and can focus on other business preparations.
We will set you up with everything needed for a professional and complete appearance and show you how to do it right! From the price list and daily procedures to advertising and communication, we will give you the best advice.
MAINTENANCE

Get the most out of your investment over a long period of time! Taking good care of your Sports Park will increase the lifespan of the products. Allow Wibit experts to teach you how to maintain the quality and appearance of your products at your location.
Springboard

How high can you jump? This gigantic springboard offers unlimited heights to jump from. The innovative semi circle step makes walking up simple and easy.

No handles required! Choose your own preferred height inwards or outwards!
Target

Catch me if you can! This round wheel is a balancing act and a great race course for playing tag. Run over the spokes or create a swim and dive challenge going over and under the obstacles. Perfect for shallow water!

Turn

Run around the course! The Turn allows you to connect four products simultaneously. Bring action to the inside of your Sports Park by e.g. connecting a RodeoSlide or Slope!
With WibitTAG, you are not only buying a Sports Park, you are creating your own sign on the water which is a brand new way of marketing.

Wibit TAG

Use the WibitTAG system to give your location an iconic identity and create a one-of-a-kind photo opportunity. You’ve got something to say? Say it on the water™

SAY IT ON THE WATER™
With WibitTAG we can build any letter, number, shape or symbol. 
Letters have never been so much fun. 
This unique concept is the world’s first floating sign people can actually play on.

Patented V- and W-Connects have been designed to keep the letters in position and allow for adequate anchoring. The Sidewalk provides the necessary stability for each word and entrance to each letter.
