# WATCHLINE

MAXIMUM SAFETY WITH
UNLIMITED FUN

wibit™

# Our Motivation

## At Wibit, we have a clear mission:

**To combine fun and safety. As important as fun is – nothing is more valuable than the safety of our visitors.**

A glimpse into the company's history shows that Wibit has always exceeded the industry's most demanding safety requirements and standards and has been involved in their development. As long-time vice-chairman of the EU Committee for Inflatable Products, Wibit CEO Romann Rademacher actively introduced safety regulations that are globally applicable for floating water sports products. For more than 15 years, he has continuously participated in various ISO groups to improve the safety of inflatable products on the water, in order to continue to ensure the highest standards for the entire industry.

As a partner of rescue societies such as the Royal Life Saving Society UK or the German Life Saving Society, Romann Rademacher is also actively involved in the development of operational safety concepts. This is essential as Wibit and its partners share a common goal: to introduce fundamental industry-wide safety standards that ensure we keep thousands of people safe and happy every day.

Romann Rademacher

**Wibit CEO & German Representative of the European Community Committee on Safety for Inflatables**

Water Safety Partner of RLSS UK

OFFICIAL PARTNERSHIP

# New Development

**To take this safety concept to a new level, we have now developed an innovative product line to meet the demands of all customers and visitors – the Wibit WatchLine!**

Choose from four different and adaptable products to complement your park in the best way possible. The modularity allows you to adapt each product individually to your location.

# Multifunctional

**Our innovative safety products not only provide protection, but also comfort and relief for your staff.**

We understand that the success of your park depends on dedicated employees. That's why we've invested in the multi-functionality of our products to make your team's work environment even more enjoyable. Through smart details and innovative approaches, you can create an environment that makes your staff feel comfortable while ensuring smooth and safe park operations.

Don't miss the chance to upgrade your park for unforgettable and safe thrills. Contact us today and let's design your custom safety solution together!

*Invest in the safety of your park – because safety is more than a product, it's a promise.*

**1.**

**WatchTopper**

**3.**

**WatchAround**

**2.**

**WatchSpot**

**4.**

**WatchRaft**

**All products are TÜV certified and have received the safety award according to EN ISO 25649. Thus, this product line also follows the usual Wibit standard – with more than 250 patents, the Wibit research and development teams have designed the safest floating products in the world!**

# USP

Have fun – but safely!

## 360° PANORAMIC VIEW

The elevated position of our safety products provides a 360-degree view of the entire park, allowing the lifeguard to identify potential hazards early and respond appropriately. This helps ensure a safe and secure environment for your visitors. The improved visibility from an elevated position also enhances effective coordination and communication between personnel, reducing incident response times and contributing to the smooth operation of the park.

## COLORATION

The color design in the international signal colors, red and yellow, stands out strikingly from the park and offers an established recognition value. In addition, this color concept fits ideally into the Wibit world and harmonizes perfectly with your park.

## SHADOW FUNCTION

The shade of the visor effectively reduces the sun's rays and provides a comfortable environment for the lifeguards to perform their duties. The ability to retreat in the shade has a positive impact on the efficiency and productivity of safety personnel, allowing them to remain alert and attentive.

## ANTI SLIP-MATERIAL

The yellow bottom surface has been specially designed to give the lifeguard additional safety. This revolutionary anti-slip technology ensures a firm grip for the guard.

## COMFORT

Each visor has two suspension options to which the lifeguards can attach equipment such as backpacks or rescue buoys. In addition, the possibility of leaning creates a comfortable working atmosphere.

## HANDLING

The design allows uncomplicated and rapid assembly and disassembly of our safety products. This easy handling also ensures a quick release of air in case of sudden weather changes.

## INDIVIDUALITY

Every safety product can be used individually and variably in your park. We specialize in providing solutions that not only meet the highest safety standards, but can also be seamlessly integrated into the existing environment and conditions of your location.

# WatchTopper

NEW!

## The Optimal Safety Concept for your Wibit Peakz Park

You can integrate our WatchTopper modularly into your existing Wibit Peakz park without compromising on FLOW or capacity. Due to the intelligent design, the WatchTopper fits harmoniously into your park and offers enough space so that visitors can pass effortlessly.

| № item no. | min. water depth | dimensions l x w x h | user capacity | inflation time | includes |
|---|---|---|---|---|---|
| 30186 | S: 5'-3" / M: 6'-7" / L: 7'-11" S: 1,6 m / M: 2 m / L: 2,4 m | 9'-10" x 8'-2" x 11'-6" 3 x 2,5 x 3,5 m | 3 | 7 min* | 4 x connector strap 2'-6" / 75 cm 1 x connector strap 4'-11" / 150 cm |

* Estimated (depends on manpower and location)

modular

# WatchSpot

NEW!

## Versatile Functionality

The WatchSpot offers you unlimited flexibility: you can use it modularly or as a standalone product with a step within your SportsPark. For ultimate comfort, an additional handle makes access to the elevated position for the guard as convenient as possible. You can also use the WatchSpot as a safe anchorage for SUPs or your Wibit Boat.

modular

| № item no. | min. water depth | dimensions l x w x h | user capacity | inflation time | includes |

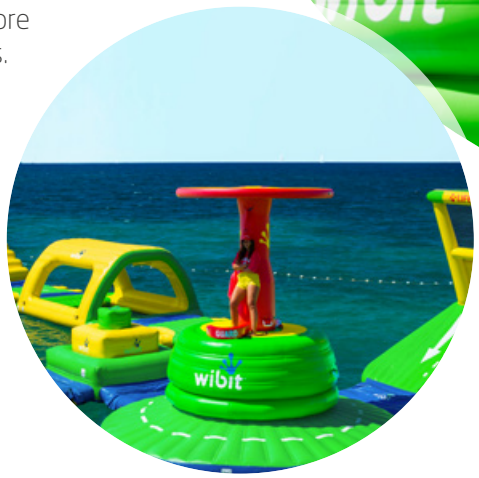
* Estimated (depends on manpower and location)

# WatchAround

NEW!

## Maximum Safety for your SportsPark

The WatchAround is the perfect complement for one of our most popular products – the Roundabout. As an attachment for the Roundabout, it offers simple and quick installation thanks to the newly developed connection system. No complicated fastening points, no time-consuming assembly. With just a few simple steps you can attach the WatchAround to your Roundabout and offer your visitors safe, enjoyable adventures. Due to the clever design, the flow is not affected in any way and you can use the Roundabout as before without restrictions.



modular

| № item no. | min. water depth | dimensions l x w x h | user capacity | inflation time | includes |

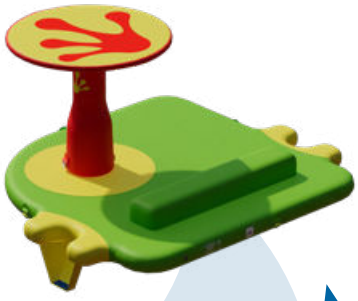
* Estimated (depends on manpower and location)

# WatchRaft

NEW!

## Safety without Compromises

The WatchRaft is designed to take your safety standards to an unprecedented level. This rest area with an integrated bench becomes the focal point for safety within your park. The strategic placement of this flexible standalone product is up to you – outside the park or as a central safety hub in the heart of your park.



standalone
