

Mountain

On the slide, get set, go!

Are you ready to slide?! Then you'll love the Mountain! Because of its impressive size alone, the Mountain is a huge highlight for every Wibit park. It offers action without limits, because here you can slide - in every imaginable way. For those who like adventure, the Sky-Jump is the right place to go: from a height of four meters, the ride goes steeply downhill and even catapults you a bit higher at the end. On the family slide, families or friends can slide together and even hold hands. The multi-slide has a competitive character and is divided into four lanes. In addition, there are two single slides and a ladder, which has been optimized so that as many visitors as possible can climb the mountain as quickly as possible. So: On the slide, get set, go!
