

# QuickJump L

Fast, dynamic,  
challenging

### The module in action:

The QuickJump L requires speed, coordination and skill to jump from bumper to bumper. With a length of six meters and seven consecutive jumping pads, the module offers an athletic challenge with high fun factor. Thanks to anti-slip surfaces on the cushions, safety is maintained during rapid movement.

### Your benefits:

The QuickJump L with seven cushions is the extended version of the classic QuickJump and offers an even more challenging alternative with double the length. The clear sequence of bumpers creates an exciting movement element that motivates visitors to make repeated attempts and adds variety to the course.

### Features:

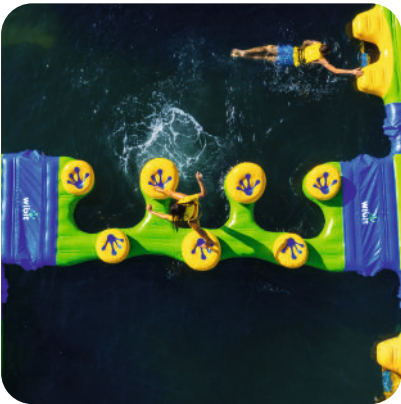

No					
item no.	min. water depth	dimensions l x w x h	user capacity	inflation time	includes
